## **NALCOR ENERGY - OIL AND GAS INC.**

### **NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (Unaudited)**

---

#### **1. DESCRIPTION OF BUSINESS**

Nalcor Energy - Oil and Gas Inc. (Oil and Gas or the Company) was incorporated under the Corporations Act of Newfoundland and Labrador (the Province). Oil and Gas has a mandate to engage in the upstream and downstream sectors of the oil and gas industry. Upstream includes exploration, development, and production activities while downstream includes transportation and processing activities. Oil and Gas is a 100% owned subsidiary of Nalcor Energy (Nalcor). Substantially all of Oil and Gas' activities are conducted jointly with others and, accordingly, these condensed interim financial statements reflect only Oil and Gas' proportionate interest in such activities. The head office is located at 500 Columbus Drive, St. John's, Newfoundland and Labrador, A1B 0C9, Canada.

#### **2. SIGNIFICANT ACCOUNTING POLICIES**

##### **2.1 Statement of Compliance and Basis of Measurement**

These condensed interim financial statements have been prepared in accordance with International Accounting Standard *IAS 34 – Interim Financial Reporting* using accounting policies consistent with those used in the preparation of the annual audited financial statements for the year ended December 31, 2020.

These condensed interim financial statements do not include all of the disclosures normally found in the Company's annual audited financial statements and should be read in conjunction with the annual audited financial statements.

These condensed interim financial statements have been prepared on a historical cost basis, except for financial assets and liabilities at fair value through profit or loss which have been measured at fair value. The condensed interim financial statements are presented in Canadian dollars (CAD) and all values rounded to the nearest thousand, except when otherwise noted. The Board of Directors (the Board) has delegated the authority to approve the condensed interim financial statements to the Audit Committee of the Board of Directors of Nalcor, which approved the condensed interim financial statements on November 12, 2021.

#### 4. LONG-TERM PAYABLE

The addition to the long-term payable is a result of First Redetermination under the Hibernia South Extension (HSE) Operating Agreement, which became effective on March 1, 2021 and resulted in a reduction in Oil and Gas' working interest in the HSE field from 10% to 8.7%. The change in working interest triggers the re-balancing of historic barrels of oil over an estimated 29 month period. As of May 2021, Oil and Gas is required to repay oil received above the revised working interest. The balance of the liability as at September 30, 2021 is \$80.2 million (December 31, 2020 - \$nil) with \$34.6 million recorded as current and included in the current portion of long-term payable.

<i>As at (thousands of Canadian dollars)</i>	September 30 2021	December 31 2020

The impact of the decrease in working interest included a historical true-up of production, capital costs and royalties.

## NALCOR ENERGY - OIL AND GAS INC.

### NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (Unaudited)

#### 9. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

##### 9.1 Fair Value

The estimated fair values of financial instruments as at September 30, 2021 and December 31, 2020 are based on relevant market prices and information available at the time. Fair value estimates are based on valuation techniques which are significantly affected by the assumptions used including the amount and timing of future cash flows and discount rates reflecting various degrees of risk. As such, the fair value estimates below are not necessarily indicative of the amounts that Oil and Gas might receive or incur in actual market transactions.

As a significant number of Oil and Gas' assets and liabilities do not meet the definition of a financial instrument, the fair value estimates below do not reflect the fair value of Oil and Gas as a whole.

##### Establishing Fair Value

Financial instruments recorded at fair value are classified using a fair value hierarchy that reflects the nature of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - valuation based on quoted price and (unadjusted) in active markets for identical assets or liabilities.

Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair value hierarchy requires the use of observable market inputs whenever such inputs exist. A financial instrument is classified to the lowest level of the hierarchy for which a significant input has been considered in measuring fair value. For assets and liabilities that are recognized at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. There were no transfers between Level 1, 2 and 3 fair value measurements for the period ended September 30, 2021 and the year ended December 31, 2020.

As at September 30, 2021 and December 31, 2020, the Company did not have any Level 3 instruments.

	Level	Carrying Value	Fair Value	Carrying Value	Fair Value
		September 30, 2021		December 31, 2020	
<i>(thousands of Canadian dollars)</i>					
Financial assets					
Derivative assets	2	-	-	2,600	2,600
Financial liabilities					
Derivative liabilities	2	39,424	39,424	8,758	8,758
Long-term payable including amount due within one year	2	80,538	95,137	550	550

The fair values of cash, trade and other receivables, and trade and other payables approximate their carrying values due to their short-term maturity.

The fair values of Level 2 financial instruments are determined using quoted prices in active markets, which, in some cases, are adjusted for factors specific to the asset or liability. Level 2 derivative instruments are valued based on observable commodity future curves, broker quotes or other publicly available data. Level 2 fair values of other risk management assets and liabilities are determined using observable inputs other than unadjusted quoted prices, such as interest rate yield curves and currency rates.

## NALCOR ENERGY - OIL AND GAS INC.

### NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (Unaudited)

---

#### 9.2 Risk Management

Oil and Gas is exposed to certain credit, liquidity and market risk through its operating, financing and investing activities. Financial risk is managed in accordance with a Board-approved policy, which outlines the objectives and strategies for the management of financial risk, including the use of derivative contracts. Permitted financial risk management strategies are aimed at minimizing the volatility of Oil and Gas' expected future cash flows.

##### Credit Risk

Oil and Gas' expected future cash flows are exposed to credit risk through its operating activities, primarily through the potential for non-performance by its customers. The degree of exposure to credit risk on cash and the sale of crude oil, including the associated accounts receivable, is determined by the financial capacity and stability of those customers and counterparties. The maximum exposure to credit risk on these financial instruments is represented by their carrying values on the Statement of Financial Position at the reporting date.

Credit risk on cash is considered to be minimal, as Oil and Gas' cash deposits are held by a Schedule 1 Canadian Chartered bank with a rating of A+ (Standard and Poor's). Receivables resulting from oil sales are carried out under oil marketing agreements with major oil and gas companies whose creditworthiness has been appropriately assessed prior to execution of the related agreements. In cases where there may be concerns regarding the creditworthiness of a customer, Oil and Gas mitigates this credit risk by insuring the sale under the provisions of its marketing agreements.

##### Liquidity Risk

Oil and Gas is exposed to liquidity risk with respect to its contractual obligations and financial liabilities, including any derivative liabilities related to hedging activities. Liquidity risk management activities are directed to ensuring cash is available to meet those obligations as they become due. Short-term liquidity is mainly provided through cash on hand, funds from operations, and a \$30.0 million (December 31, 2020 - \$30.0 million) unsecured demand operating facility with the Company's bank. As at September 30, 2021 Oil and Gas had no borrowings outstanding on the credit facility (December 31, 2020 - \$nil), and \$20.9 million of the borrowing limit had been used to issue two irrevocable letters of credit (December 31, 2020 - \$22.2 million to issue two irrevocable letters of credit) to ensure compliance with service agreements and regulations relating to petroleum and natural gas exploration and production activities.

##### Market Risk

In the course of carrying out its operating, financing and investing activities, Oil and Gas is exposed to possible market price movements that could impact expected future cash flow and the carrying value of certain financial assets and liabilities. Market price movements to which Oil and Gas has significant exposure include those relating to prevailing interest rates, foreign exchange rates, most notably USD/CAD, and current commodity prices, most notably the spot prices for oil.

##### *Foreign Exchange and Commodity Exposure*

Oil and Gas is exposed to foreign exchange and commodity price risk on its sales, which are denominated in USD and based on prevailing market oil prices. Commodity price exposure on USD denominated oil sales is addressed through the use of fixed price commodity swaps and foreign exchange exposure on sales is partially offset by USD denominated capital expenditures and foreign exchange forward contracts.

During 2021, total oil sales denominated in USD were \$188.4 million (September 30, 2020 - \$137.3 million). To mitigate foreign exchange risk and commodity price risk on a portion of sales, Oil and Gas have used foreign currency forward contracts and fixed price commodity swaps, respectively.

On March 29, 2021 Oil and Gas entered into a series of commodity price swap contracts with a notional value of \$47.8 million USD and an average price of \$60.97 USD per barrel. On June 29, 2021, Oil and Gas entered into a series of commodity price swap contracts with a notional value of \$43.3 million USD and an average price of \$70.46 USD per barrel. Additionally, on September 28, 2021, Oil and Gas entered into a series of commodity price swap contracts with a notional value of \$36.8 million USD and an average price of \$74.60 USD per barrel.

## NALCOR ENERGY - OIL AND GAS INC.

### NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (Unaudited)

As at September 30, 2021, Oil and Gas has 60 commodity price swaps remaining, hedging 61.7% of anticipated October 2021 to September 2022 oil sales. The remaining contracts have a notional value of \$119.2 million USD, and an average fixed price of \$65.19 USD per barrel. As the contracts have been designated as hedging instruments, change in fair value has been recorded in other comprehensive income (loss). During 2021, \$41.6 million realized losses (September 30, 2020 - \$39.7 million in realized gains) have been recorded in other expense (income) and \$24.0 million in unrealized losses (September 30, 2020 - \$10.8 million in unrealized gains) remain in other comprehensive income (loss).

On March 29, 2021 Oil and Gas entered into a series of foreign exchange forward contracts with a notional value of \$47.8 million USD and an average fixed exchange rate of \$1.26 CAD per USD. On June 29, 2021, Oil and Gas entered into a series of foreign exchange forward contracts with a notional value of \$43.3 million USD and an average fixed exchange rate of \$1.24 CAD per USD. Additionally, on September 28, 2021, Oil and Gas entered into a series of foreign exchange forward contracts with a notional value of \$36.8 million USD and an average fixed exchange rate of \$1.27 CAD per USD.

As at September 30, 2021, Oil and Gas has 29 foreign exchange forward contracts remaining hedging foreign exchange risk on 55.3% of anticipated USD cash flows from oil sales from October 2021 to October 2022. The remaining contracts have a notional value of \$129.5 million USD, and an average fixed exchange rate of \$1.26 CAD per USD. As the contracts have been designated as hedging instruments, changes in fair value has been recorded in other comprehensive income (loss). During 2021, \$4.0 million in realized gains (September 30, 2020 - \$2.2 million in realized losses) have been recorded in other expense (income) and \$1.0 million in unrealized losses (September 30, 2020 - \$0.2 million in unrealized losses) remain in other comprehensive income (loss).

The components of change impacting the carrying value of financial instruments are as follows:

	<b>Commodity and Forward Contracts</b>	<b>Other</b>	<b>Total</b>
<i>(thousands of Canadian dollars)</i>	<b>Level 2</b>	<b>Level 2</b>	<b>Level 2</b>
<b>Balance at January 1, 2021</b>	<b>(6,158)</b>	-	<b>(6,158)</b>
<b>Changes to profit (loss)</b>			
<b>Mark-to-market</b>	-	<b>(14,599)</b>	<b>(14,599)</b>
<b>Total</b>	-	<b>(14,599)</b>	<b>(14,599)</b>
<b>Changes in other comprehensive loss</b>			
<b>Mark-to-market</b>	<b>(56,316)</b>	-	<b>(56,316)</b>
<b>Settlements realized in profit (loss)</b>	<b>37,649</b>	-	<b>37,649</b>
<b>Total</b>	<b>(18,667)</b>	-	<b>(18,667)</b>
<b>Balance at September 30, 2021</b>	<b>(24,825)</b>	<b>(14,599)</b>	<b>(39,424)</b>
Balance at January 1, 2020	(5,205)	-	(5,205)
<b>Changes in other comprehensive income</b>			
<b>Mark-to-market</b>	53,273	-	53,273
<b>Settlements realized in profit (loss)</b>	<b>(37,472)</b>	-	<b>(37,472)</b>
<b>Total</b>	<b>15,801</b>	-	<b>15,801</b>
Balance at September 30, 2020	10,596	-	10,596

## NALCOR ENERGY - OIL AND GAS INC.

### NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (Unaudited)

---

#### 10. RELATED PARTY TRANSACTIONS

Oil and Gas enters into various transactions with its shareholder and other affiliates. These transactions occur within the normal course of operations and are measured at the exchange amount, which is the amount of consideration agreed to by the related parties. Related parties with which Oil and Gas transacts are as follows:

Related Party	Relationship
Nalcor	100% shareholder of Oil and Gas
Newfoundland and Labrador Hydro (Hydro)	Wholly-owned subsidiary of Nalcor
Oil and Gas Corporation of Newfoundland and Labrador	Wholly-owned subsidiary of the Province
Bull Arm Fabrication	Wholly-owned subsidiary of Oil and Gas Corporation of Newfoundland and Labrador
The Province	100% shareholder of Nalcor

Routine operating transactions with related parties are settled at prevailing market prices under normal trade terms. Outstanding balances due to or from related parties are non-interest bearing with no set terms of repayment, unless otherwise stated.

Significant related party transactions and balances are as follows:

- (a) As at September 30, 2021, Oil and Gas had a net payable to Nalcor of \$0.6 million (December 31, 2020 - \$1.1 million net payable).
- (b) For the period ended September 30, 2021, Oil and Gas expensed \$31.6 million (September 30, 2020 - \$23.2 million) to the Province for royalties on its oil and gas operations.
- (c) As at September 30, 2021, Oil and Gas had a net receivable from Bull Arm Fabrication of \$3.3 million (December 31, 2020 - \$3.3 million).
- (d) As at September 30, 2021, Oil and Gas had a net receivable from the Oil and Gas Corporation of Newfoundland and Labrador of \$2.6 million (December 31, 2020 - \$2.5 million).
- (e) For the period ended September 30, 2021, Oil and Gas was charged \$3.2 million (September 30, 2020 - \$3.2 million) by Oil and Gas Corporation of Newfoundland and Labrador for management services.

#### 11. COMMITMENTS AND CONTINGENCIES

Oil and Gas is subject to various legal proceedings and claims in the normal course of business. Although the outcome of such actions cannot be predicted with certainty, Management believes Oil and Gas's exposure to such claims and litigation will not materially affect its financial position or results of operations.
