

Commercial Electric Vehicle Charger Rebate

Proof of Approval to Install Form

To be eligible for the Commercial Electric Vehicle (EV) Charger Rebate, applicants must provide proof of approval to install the charger(s) at the location identified in your application. Complete this form to attest that you have authority over the property where the charger(s) will be installed, or are a representative of the group with such authority. You must provide a copy of this form when you submit your pre-approval application.

How to Complete This Form

1. Download, print and complete this form. If you do not have authority over the property, you must work with the individual or representative group who has such authority. If submitting a paper copy by mail, please print legibly and in capital letters.
2. Include a copy of this completed form when you submit your application for pre-approval. This can be uploaded online at <https://nlhydro.com/commercial-ev-charger-pre-approval>, attached when submitting by email, or printed and included if submitting your application by mail.

Statement of Approval

I/We,
authorize
to install charging station(s) at

and to apply for incentives from the Newfoundland and Labrador Hydro Commercial Electric Vehicle Charger Rebate program.
