

VIEW YOUR BILL ANYTIME, ANYWHERE WITH E-BILLING

Electronic billing, or e-billing, is a safe and secure way to receive and view your Hydro bill online. It's convenient for you and good for the environment. Instead of receiving your monthly electricity bill in the mail, you'll receive an email with your bill attached.

To make the switch, email us or contact a member of our team.

WANT EVEN MORE INFORMATION AT YOUR FINGERTIPS?

Download our free customer app, **myNLhydro**. With myNLhydro, you can quickly and easily manage your account, monitor electricity use, pay your bill, and view or report power outages in your area – on any device, anytime, anywhere. Get started today!

GOOD TO KNOW

STAY SAFE IN YOUR OWN BACKYARD

June is Electricity Month across Canada. For many of us, it's also a time for home improvement projects – a great time to get outside, use your creativity, and tidy up your yard. However, it's important to always make sure you're doing things safely.

Visit nlhydro.com for tips on how you can stay safe while working around the yard this summer!

EMPLOYEES GIVE BACK DURING NATIONAL VOLUNTEER WEEK

At Hydro our employees generously give back to communities and charitable groups all around our province. During National Volunteer Week in April, we partnered with the Kids Eat Smart Foundation Newfoundland and Labrador again this year for Hydro's annual province-wide Energy Breakfast, collecting food and donations for more than a dozen schools and helping to provide nutritious breakfasts for school-aged children in communities where our employees live and work.

Employees also gave back in other ways throughout the week. Whether it was cooking meals for families at Ronald McDonald House, walking shelter dogs, organizing clothing drives or participating in a local fundraising activity, our employees were proud to provide energy our communities can count on.

Energy Savers Kit

SAVE up to \$100[†]/year
when you install these products.

Free* for income-qualified customers
