Dear [REDACTED]

Re: Your request for access to information under Part II of the *Access to Information and Protection of Privacy Act, 2015* (File #: PB/1105/2023)

On October 12, 2023, we received your request for access to the following records/information:

Please provide an updated version of Hydro's response to previous request PB/441/2017 provided on August 31, 2017. The response should include construction costs for the Lower Churchill Project incurred up to the end of June 2022." I understand the previous response had redactions for professional services, and I understand that may be still the case. A response by email is preferred. If the response could be provided in Excel spreadsheet format, that would be great; if that is not possible Adobe pdf format would be ok.

Please be advised that access to the records responsive to your request have been granted. Please see the attached excel file.

In keeping with our standard practice, it is our intention to post this letter on the Newfoundland and Labrador Hydro website.

Please be advised that you may ask the Information and Privacy Commissioner to review the processing of your access request, as set out in section 42 of the Access to Information and Protection of Privacy Act, 2015 (the Act) (a copy of this section has been enclosed for your reference). A request to the Commissioner must be made in writing within 15 business days of the date of this letter or within a longer period that may be allowed by the Commissioner.

The appeal may be addressed to the Information and Privacy Commissioner as follows:
