

OUR COMMUNITY CHAMPIONS NETWORK

ASHLEY HOBBS

Dam Safety Engineer
Hydro Place
AshleyHobbs@nlh.nl.ca

Ashley has been working at Hydro for almost six years and volunteers on several technical committees related to dam safety, including Canadian Dam Association and Canadian

Standards Association. She also regularly volunteers at the Jimmy Pratt center through Hydro. Ashley is excited to be a part of the Community Champions Network and looks forward to getting more involved in helping our communities.

ASHLEY PILGRIM

Site Service Supervisor
Muskrat Falls
AshleyPilgrim@nlh.nl.ca

Ashley has worked with Hydro for seven years now. Connecting Hydro and the community through volunteer work within the schools and family centers in Happy Valley-Goose Bay, and surrounding area, is very important to Ashley. She knows that showing up for our community helps build the bond and visibility that we strive for, and being a part of the Community Champions Network will help her do more of that within her community.

HELEN GAULTON

Office Clerk
Bishop's Falls
HelenGaulton@nlh.nl.ca

Helen's career with Hydro started in Stephenville in 2010, and she has been working in Bishop's Falls since 2019. Helen is proud to work for a company that is involved with our communities and believes that giving back is a meaningful way to keep employees inspired and engaged. She welcomes the opportunity to learn leadership skills and develop a better understanding of the community programs we support, and all that Hydro has to offer, through this network.

JEANINE KING

Financial Specialist
Bishop's Falls
JeanineKing@nlh.nl.ca

This October will mark seven years with Hydro for Jeanine. Volunteering allows her to positively impact and connect with her community, and she especially loves volunteering for

events she knows her daughter, and other young children, will enjoy taking part in. A charity that is near and dear to her heart is the Bay D'Espoir Cancer Benefit which financially assists individuals within the community who are battling cancer. Jeanine has had family members who have needed to avail of this meaningful charity so she gives back however she can.

CHRISTOPHER TOBIN

Protection & Controls Technologist
Wabush
ChristopherTobin@nlh.nl.ca

Chris has been with Hydro for six years and he currently volunteers for primarily youth-based organizations, as both a Scouts Canada leader and as a minor hockey coach. He's also a member of his local Royal Canadian Legion

branch where he offers whatever support he can. He's looking forward to his role with the Community Champions Network to hopefully bring some further connections to his community.

JO-LYNN BUTT

Document Controller
Holyrood
Jo-LynnButt@nlh.nl.ca

Jo-Lynn has worked with various departments within Hydro since 2002. She has been giving back in her communities since the early days, through RCMP, St. John's Ambulance and as a Beaver Leader.

Jo-Lynn has helped fundraise for and volunteer with Relay for Life, after battling cancer herself, and when COVID-19 hit she organized a group called the Masked Bandits who made and donated thousands of masks to those in need. These days she helps out at a cat shelter in Port aux Basques and wherever else she can lend her support. Out of our Holyrood office she helps organize many initiatives and fundraisers, especially for the Kids Eat Smart program to support local schools.

DARLENE HANCOCK

Area Office Clerk
Bishop's Falls
DarleneHancock@nlh.nl.ca

Darlene has worked with Hydro for almost 42 years. She started volunteering when she was 10 and is involved in children's charities such as Ronald McDonald House NL and the Children's Wish (Make a Wish Foundation). She joined the Community Champions Network because helping others and spreading kindness is so important to her, especially when families and children have had their lives turned upside down, often at a moment's notice. Darlene knows that volunteers can help make a positive difference to people's lives and help make a journey less stressful when needing a "Home away from Home" to be close to a sick child.

KELSEY HAYLEY

Team Lead, Workforce Planning
Churchill Falls
KelseyHayley@nlh.nl.ca

Kelsey has worked with Hydro for 10 years. Since she was a kid, she's always volunteered with local organizations she feels passionate about, including volunteering with local minor hockey and Girl Guides.

With Hydro, Ronald McDonald House and Jimmy Pratt Soup Kitchen were always her favourite organizations to help out with. For the past number of years, since her family adopted their Labrador Husky, Charley, from the HV-GB SPCA, that has been her charity of choice to support.

GINA PLOWMAN

Area Office Clerk
Port Saunders
GinaPlowman@nlh.nl.ca

Gina started working with Hydro just over a year ago. She has worked with the breakfast programs in Port Saunders and was on the Board for the Family Resource Centre. She is

currently on the Hockey Stadium Board and has coordinated some great community initiatives with employees in the Port Saunders area over the past year, including Ronald McDonald House Sock It for Sick Kids and our 2023 Energy Breakfast. Gina wants to help in any way when it comes to making her community better.

MIKE DYSON

Civil Engineer
Hydro Place
MikeDyson@nlh.nl.ca

Mike has been with Hydro for 13 years and he's all about bringing people together and making sure everyone's voice is being heard. Joining the Community Champions Network is a natural fit for Mike who is passionate about promoting diversity and inclusion and getting involved here at Hydro. He's excited to jump in and be a part of initiatives that make a real difference for our communities.
