

# HERE AT HYDRO, **SAFETY IS OUR FIRST PRIORITY.**

Help us ensure a safe and healthy workplace for everyone by keeping the following in mind:

Please **BACK IN** your vehicle when parking. We've been following our Backing In Policy since 1975. It's a small act of safety – but even the smallest steps can make a big difference. Please also follow pavement arrows and posted signage in your area.

On your first day, **CHECK IN** with your supervisor and/or buddy to get your ID badge. Also, familiarize yourself with the emergency exits and muster stations in your area.

We're happy to be a **SCENT-FREE** workplace. Scents and fragrances can trigger sensitivities for some people, causing headaches, allergic reactions and respiratory issues. Please refrain from wearing or using scented products.
