**Dear** [REDACTED]

**Re: Your request for access to information under Part II of the *Access to Information and Protection of Privacy Act, 2015* (File #: PB/96/2026)**

On January 26 2026, we received your request for access to the following records/information:

*Interprovincial electricity trading data between Newfoundland and Labrador and any provinces with which electricity trade is done. If possible data should be hourly or sub-hourly where available with information on energy volumes in kWh or MWh.*

On February 3, 2026, you updated the request to the following:

*For the timeframe Jan 2020 to Dec 2024 would be preferred if the data is available.*

Please be advised that access to the records responsive to your request have been withheld in accordance with the following exceptions to disclosure, as specified in the **Access to Information and Protection of Privacy Act (the ATIPPA)**:

**Section 34(1)(a)(i):** The head of a public body may refuse to disclose information to an applicant if the disclosure could reasonably be expected to harm the conduct by the government of the province of relations between that government and the following or their agencies: the government of Canada or a province.

**Section 35(1)(d):** The head of a public body may refuse to disclose to an applicant information which could reasonably be expected to disclose information, the disclosure of which could reasonably be expected to result in the premature disclosure of a proposal or project or in significant loss or gain to a third party.

**Section 35(1)(g):** The head of a public body may refuse to disclose to an applicant information which could reasonably be expected to disclose information, the disclosure of which could reasonably be expected to prejudice the financial or economic interest of the government of the province or a public body.

Please note, while Energy Marketing does not report on volumes delivered to specific provinces, there is a Stats Canada report on interprovincial energy trade that is publicly available here: <https://www150.statcan.gc.ca/t1/tbl1/en/cv.action?pid=2510001601>

This dataset includes monthly provincial MWh data on purchases and deliveries to other provinces as well as to the United States. The data aggregates all provinces together. This dataset does also include purchases by other provinces (i.e NS purchased X GWhs from other provinces), so you could make deductions if using the entire data on energy flows between provinces. But again, there is no dataset that we have been able to find that gives the explicit breakdown of which provinces the energy went to in any given month.

In keeping with our standard practice, it is our intention to post this letter on the Newfoundland and Labrador Hydro website.

Please be advised that you may ask the Information and Privacy Commissioner to review the processing of your access request, as set out in section 42 of **the Access to Information and Protection of Privacy Act, 2015** (the Act) (a copy of this section has been enclosed for your reference). A request to the Commissioner must be made in writing within 15 business days of the date of this letter or within a longer period that may be allowed by the Commissioner.

The appeal may be addressed to the Information and Privacy Commissioner as follows:
